

Make Hiring Easier with CareerPlug

How It Works

Our hiring software is built around a proven process that has helped thousands of companies make better hiring decisions. We package our process into an easy-to-use system that automates many of the tedious, manual steps of the hiring process and provides you built-in evaluation tools so that you can confidently identify, interview, evaluate, and hire the right person.

Create an attractive job posting in minutes

Make your job shine!

Automatically promote it where jobseekers search

MAXIMIZE your applicant flow!

Prequalify applicants and schedule interviews

Book more quality interviews!

Evaluate thoroughly and hire the right person

Hire with confidence!

We know that the above resources may not answer all of your questions and we want to answer them as quickly as possible. For additional help, consult these resources:
